PROFESSIONAL SUMMARY

A hardworking and dedicated Junior Fullstack Developer, passionate about building clean and functional web applications using technologies like JavaScript and Python. A recent graduate of Moringa School, eager to contribute to a collaborative team, tackle new challenges, and grow within a professional software engineering environment. Experienced in collaboration through team projects and group coursework.

EDUCATION

Moringa School   *Jan 2024 | Ngong Road, Ngong Lane Plaza*

Software Developer Program

Relevant Coursework:Object-Oriented Programming, Database Management Systems, Software Engineering, Web Development
Developed a full-stack web application using Python JavaScript, SQL

My Friend   *Nairobi | August 2025 - September 2025*

Tutor

- Assisted my fellow student with introductory programming concepts in JavaScript
- New Responsibility

Foundation on Software Development, Moringa School   *May 2025*

Software Engineering Course, Moringa School   *November 2025*

Web Development with Python, Microsoft via Coursera
Online non-credit course authorized by Microsoft and offered through Coursera

TECHNICAL SKILLS

General: Python, JavaScript, HTML5, CSS3, Flask, React, Node.js, SQLite, PostgreSQL, MongoDB, Git, GitHub, VSCode

Languages: Python, JavaScript, HTML5, CSS3

Frameworks & Libraries: Flask, React, Node.js

Databases: SQLite, PostgreSQL, MongoDB

Tools: Git, GitHub, VSCode

PROJECTS

Task Tracker App
- A full-stack web application that allows users to create, manage, and track the progress of their daily tasks. Designed the database schema and implemented user authentication to enable secure, personalized task lists. Tech: Flask, SQLite, HTML, CSS

Weather Dashboard
- A responsive React application that fetches and displays current weather data and forecasts for any city. Designed and implemented RESTful APIs to retrieve weather data, demonstrating integration with third-party APIs and asynchronous data flow in a frontend application. Tech: React, Node.js, API

Automation Scripts

- A collection of Python scripts designed to automate repetitive daily tasks, improving efficiency and demonstrating problem-solving skills. Tech: Python
